Read the excerpt about families from yesterday. Then, summarize using the 5 W's.

There is nobody I trust as much as my teammates. We've played together so much that we can finish each other's sentences. I play goalie for our team. When I am in the box, I know the other players are there for me. They have my back and they won't let the other team mess with me. When I send the ball down the field, my teammates know my plan. I don't have to yell much. They just understand. My teammates are who I spend time with off the field, too. We are almost like sisters.
