## Long vowels

If a friend was going to describe you, what words would they use?

Pick 5 words that describe you well.

All of the words you pick must include a long vowel. The long vowels have the sounds you hear in hate, Pete, fine, go, and tube. You can use adjectives from this page or other adjectives you think up on your own. But the adjectives all have to include a long vowel.

nēat works because it has the long e sound like in "Pete"

thĭn doesn't work because it has the short I sound like in "fin"
