Read this familiar fairy tale. Enter the events in the correct place on the narrative arc.

Once upon a time there was a girl named Cinderella who lived with her stepmother and stepsisters. They made Cinderella work all the time. One day, they received invitations to a ball at the prince's palace. The stepmother and stepsisters went, but they wouldn't let Cinderella go. While Cinderella was home alone, her fairy godmother came. She magically made Cinderella a dress and a coach, but she told Cinderella that she had to be home by midnight. At the palace, Cinderella was dancing with the prince when the clock struck midnight! She ran out of the palace, but on her way, she lost one of her glass slippers. The next day, the prince went all around the kingdom trying to find the girl whose foot fit the glass slipper. He found that the slipper fit Cinderella. They got married and lived happily ever after.
