

Name:

# The Hossains get green cards!

## Final discussion

### How will legal status help them live out their hopes and dreams?

Great news for the Hossain family! They filed a new application for residency, and it was approved. Now, they have green cards. They are all legal, permanent residents of the United States. How will getting legal status help the family?

### What happens now? How will their lives change?

Your group will think about what will change for one of the four main characters: Abba, Ma, Aisha, and Nadira.

Use facts about immigration, facts about the characters' hopes and dreams, and what you know about how people think and feel to draw some inferences about what happens next.

- What will the character do now? What opportunities open up?
- How will the character's thoughts and feelings change?

You will talk together, make notes in the workbook, and write your group's ideas on chart paper.
