## Being a family

We talked about different ways of being a family:

- \* Family members can trust each other.
- \* Families take care of basic needs.
- \* Families do kind things for each other.
- \* Families work to earn money for everyone.
- \* Families celebrate holidays together.
- \* Families accept each other.

Pick **one** of these ways of being a family. Write about a time when you saw this happening for your family. Or you could write about another family you know. Be sure to include **who**, **did what**, **when**, **where**, and **why**.
