

Name:

Station two

The basketball court

This is a diagram of a basketball court:

This diagram shows you where the offense stands:

Basketball positions

PG **Point Guard.** The point guard directs the offense. He helps the team score points.

SG **Shooting Guard.** This player is the main shooter on the team and often shoots long distance.

SF **Small Forward.** This player's main responsibility is to shoot. The small forward also helps out on defense.

C **Center.** The center shoots the ball from close to the basket. The center also blocks the other team from scoring. The center "rebounds" as well, grabbing the ball after someone misses a shot.

PF **Power Forward.** The power forward helps block the other team from scoring. Power forwards spend most of their time near the basket. Like the center, a power forward rebounds a lot.

Station two, continued

Think of another team sport that you know.

 (write your team sport here)

Draw the field or court in the box below.

Draw and label the positions.

Compare this team sport to basketball. List the ways in which your team sport is similar to and different from basketball in the tables below. For example, you could compare basketball and soccer:

Basketball is similar to soccer in these ways:

Basketball	Soccer
There are two teams	There are two teams

Now, complete your own table:

Basketball is similar to _____ in these ways:
 (write your team sport here)

Basketball	Your team sport: _____

Station two, continued

Now discuss what you can teach the class about basketball.

Can you teach about the names of the different positions?

Can you teach about the parts of a basketball court?

Can you teach about differences between basketball and other sports?

How will you show your information? How will you make it interesting?

Our group will present:

- names and jobs of different basketball positions
- names for parts of the basketball court
- ways that basketball is like another sport

We will use:

- acting out roles
- our own drawing
- some other idea
