

Name:

# Cause and effect

## Part 2

Read these causes and effects about the World Trade Center on September 11, 2001.

Draw arrows connecting causes with their effects.

### CAUSES

### EFFECTS

The crashing planes sprayed burning jet fuel

some people were trapped inside the towers

The falling towers knocked out computer and phone lines

the twin towers went up in flames

Stairs inside the towers were crushed

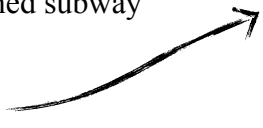

people could not get out of lower Manhattan

The falling towers crushed subway and train tracks

only 30,000 people were at work

The attacks came early

no one could contact friends or family

→ Write sentences below that include both a cause and its effect.

Use **because** or **since** in front of the cause. Include a comma in between the cause and the effect.

Example: *Because the attacks came early, only 30,000 people were at work.*
